TECHNICAL DATA

Monoblock - steel structure, hand welded, heat-resistant up to 600°C.

High-temperature resistant, glass-ceramic window.

1 ash collector: extractable.

1 ash collector: extractable and hermetic.

Programming LED control panel.

Nine steps power setting.

Ambient ventilator.

Smoke outlet: \varnothing 80 mm.

Electrical Supply: 230V-50Hz-1Ph.

Average thermal input: 22 kW.

Nominal heat power min. - max: 5-18,29 kW.

Hourly pellet consumption: 1,2-4,4 kg.

Max efficiency: 90%.

Pellet tank capacity: 25 Kg.

Working electrical absorbed power: 110 W.

Starting electrical absorbed power: 350 W.

Weight: 190 kg approx.
